Practice Makes Perfect: Complete Italian Grammar, Premium Second Edition

Synopsis

Build up your Italian grammar skills and communicate with ease. The only way to boost your confidence in a second language is to practice, practice, practice. From the present tense of regular verbs to direct object pronouns, this comprehensive guide and workbook covers all aspects of Italian grammar that you need to master. Focusing on the practical aspects of Italian as it's really spoken, each unit features clear explanations, numerous realistic examples, and lots of engaging exercises. *Practice Makes Perfect: Complete Italian Grammar* makes mastering grammar easy with:

- Clear, down-to-earth, easy-to-follow explanations that make even the most complex principles easy to understand
- Example sentences that illustrate and clarify each grammatical point
- Dozens of exercises in formats suited to every learning style
- Practical and high-frequency vocabulary used throughout
- A detailed answer key for quick, easy progress checks
- Supporting audio recordings, flashcards, and an auto-fill glossary online and via app
- With help from this book, you can effortlessly use:

Possessive adjectives • Relative pronouns • Gerunds • Expressions of time • The passive and the impersonal *Si* * The subjunctive mood * Question words

Customer Reviews

Marcel Danesi teaches Italian at the University of Toronto.

This workbook is fantastic. I am very pleased with the logical layout and the in-depth discussions of verbs, adjectives, nouns, etc. This workbook has so much information in it, it can easily replace a

textbook and be used on its own. The exercises are relevant and straightforward, but also varied. Something I didn't know, however, before I bought it: this book is intended for intermediate users. Don't let this discourage you from purchasing it, though. As long as you know a few of the basic concepts of Italian, and understand a little about how languages work in general, you will be able to begin at the start of this workbook. One thing it is slightly lacking in is vocabulary. There are many other books in the Practice Makes Perfect series intended to work together, so while this book will certainly help you with all the grammar you could need for an Italian I/II level understanding, you'll need to either get the other workbook(s) or find some other source of vocabulary. I have been so pleased with this workbook, however, that I intend to complete my collection of the series. I highly recommend this product to anyone who wants to study Italian on their own for fluency (not recommended for "travel"-type learning).

I am using this book as a supplement to Rosetta Stone. It gives very understandable explanations. The only thing I am unhappy with is the discrepancy between the answers to the practice questions and the same sentence shown in the example. I have asked a friend in Italy about the correct answers and sometimes it is the answer in the back and sometimes the example in the lesson.

One time working my way through the book is insufficient for me. I study languages on my own and do a diligent job but a diligent job for my mind is daily listening and studying. The book covers very much and is organized in a way that works. With so many sub-topics it has to be difficult to organize a linear line of study that makes sense in its own right, and this book succeeds. I have a slew of Practice Makes Perfect books for both Spanish and Italian and I would be hard pressed to use another publisher's book on the same topics.

It was well worth a few extra dollars to get the Premium Edition because for no extra cost I also have access to dozens of lessons and hundreds of flash cards that I can study on-the-go on my iPhone using the free Language Lab app. To tell the truth, I'm using them more than the actual book.

Very well written. Concise, clear to the point, and very informative. It was more than I expected to be honest, and I will keep using this as I learn.

This book has proven to be a great supplement to my Rosetta Stone software. The exercises in the

book are just like what we had to do to learn English in school, and because of that, I feel it has given me a great foundation for one day becoming fluent. I highly recommend.

The book is good. However, I bought the ebook and the Italian grammar explanations are impossible to enlarge. So, no matter how big I make the text of the book, the grammar illustrations are illegible. I've tried copying the illustrations/explanations and copying on a separate page outside of Kindle, but they won't copy. This makes the book almost worthless.

This is really the only book that you need to navigate the tricky roads of Italian grammar. The language of the Italian peninsula is considered an easy language to learn, and it is, AFTER you master the nuances of why Italians speak the way they do. This is my second copy of Practice Makes Perfect, the first one having fallen apart after repeated, and sloppy, use. In the meantime, I purchased other grammar books, but none were as effective as this one. My only complaint is that sometimes the article is not given with the noun, but this is a common problem with Italian language books.
