This is a powerful book on life in Uganda prior to and during the ruinous, terror reign of Idi Amin. It is written by Denis Hills, who was arrested for writing this book in Uganda. I'm guessing if you're reading this review, you're either familiar with Denis Hills, or watched the film 'The rise and fall of Idi Amin.' As to the book itself, it will absorb you by the way it's written. It's like a historical piece and you can tell from certain passages that it was written on an old type writer late at night over a long period of time and over many many nights, because the punctuation sometimes isn't correct and the thoughts can be disconnected from one passage to another in parts. But it's very engaging in its insight, and gives you a real feel for what it would have been like to be an expatriate living in Uganda at the time, it really paints a portrait through words which is an art in and of itself. It provides tremendous insights into the nature of the problems faced and analysis of culture. I read through 344 pages in less than a week, and it was a joy to read from beginning to end. Highly recommended.
